

ATELIER ALAIN ELLOUZ

*For Atelier Alain Ellouz, realizing projects designed by Wainbridge is always a great adventure.*

*Indeed, we share with Wainbridge the passion for Alabaster and Rock Crystal, the important values such as the extreme rigor with regard to quality, the quest of unique objects as well as the respect of noble materials.*

*From this genuine dialogue emerge exceptional light fixtures, audacious sculptures that look like luminous waterfalls, which make our renown while bringing a singular touch to Wainbridge's creations.*

*To be continued...*
